Product benefits

- **Simplified installation** : Modules are slid into place, reducing the need for handling.
- **Secure installation** : Modules are fixed from below.
- **Reduced installation time** : Screwless stop and flexible splice.
- **Rainwater drainage** : EVO 120+ longitudinal beam maximising effective rainwater management.
- **Maintenance** : Convenient access to modules for easy servicing.
- **Options** : Inter-module spacers for rainwater drainage between panels.
- **French manufacturing** : Our solutions are designed and manufactured in France.

Technical characteristics

Application area	New or existing roof / Carport / Roof Terrace
Weather resistance	Suitable for cyclonic areas
Module orientation	Portrait or Landscape according to the installation instruction
Modules characteristics	Framed with frame return / Thickness : 25 to 55 mm
Matériau	Steel with Magnelis®
Screws and bolts	Stainless steel & zinc plated
Grounding	VERITAS test report
Guarantee	10 years
Certification	ETN-France-DROM

Modules under ETN
