

ADIWATT

Photovoltaics, a matter of expertise

THE SOLAR TABLE SOLUTION WITH NO IMPACT ON THE
GROUND

X-GROUND

The ideal system for your self-consumption projects.
Our X-Ground tables stand out thanks to their tubular micropile fixing
system.

 182 Route de Marolles, 41330 Fossé, France

Product benefits

- **Optimised solution** : All terrains capable of receiving micropiles (excluding fill, sand, rock, etc.).
- **Low-impact installation** : Installation without heavy machinery or concrete, minimising ground impact.
- **Easy assembly** : Supplied as a kit with pre-drilled structure.
- **Simplified process** : Pull-out test/tensile test mandatory. Soil survey not mandatory but recommended.
- **Optimal production** : Several table inclinaisons possible.
- **Adaptability** : Option of concrete beams for unsuitable ground conditions.
- **French manufacturing** : Our solutions are designed and manufactured in France.

Technical characteristics

Project design	Eurocode calculation of the structure according to the geographic
Weather resistance	Cyclonic zone suitable*
Matériau	Steel
Fondation type	Tubular micropiles (Concrete stringers on request)
Module type & orientation	Framed - Portrait mode
Tilt	14° or 18°
Grounding	VERITAS test report

**Subject to the results of the pull-out test*
